

REMARKS

The Applicant has received the Final Office Action dated July 14, 2004. The Applicant appreciates the Examiner removing the rejections related to claims 15-16 and 1-22 relative to 35 U.S.C. §§ 102 and 103 (per Paragraph 13 of the Office Action).

Regarding the remaining issues, the Applicant will address them in the order provided in the Office Action.

Specification

The Applicant apparently incorrectly attempted to move the hyperlink in the response filed April 23, 2004. After reading section 608.01 of the MPEP, the proposed amendment lacking "<>" or "[http://](http://www.rds.org.uk/rds98/rds98.htm)" identifiers to www.rds.org.uk/rds98/rds98.htm without constituting a hyperlink. This is believed to be a proper reference to a website without creating an imbedded hyperlink. However, if this is still an improper reference, the Patent Office may alter this reference to alternatively identify the website while removing the hyperlink in another manner.

Double Patenting Rejection

Claims 2-11 and 13-18 and 20-24 remain rejected subject to double patenting rejections which all include rejections based on co-owned U.S. Patent No. 6,625,464. The applicant is enclosing a Terminal Disclaimer which should successfully overcome these rejections.

Conclusion

A Terminal Disclaimer with the appropriate fee is enclosed herewith and claims 2-11, 13 and 23-24 are now believed to be allowable. Such action is respectfully requested.

Respectfully submitted,
